Professional Summary

Dynamic and detail-oriented professional with a successful transition from HR to Cybersecurity. Leveraging expertise in compliance, policy development, and risk management to enhance cybersecurity practices. Skilled in identifying vulnerabilities, implementing security measures, conducting risk assessments, and delivering comprehensive training programs on security protocols. Proven ability to communicate technical information to diverse audiences. Committed to continuous learning and protecting sensitive data.

Skills

- Cyber Attacks
- Cyber Warfare
- Attacks and Techniques
- Infiltration
- Cyber security Lands cap
- Introduction to OS(Linux-Windows)-in view
- Penetration Testing
- Time Management
- WebOSINT (Tryhackme)
- Offensive SecurityHacking First Machine Fake Bank(Tryhackme)
- Defensive Security find the “flag” (Tryhackme)
- Teamwork
- SOC Operations, Threat Detection, MITRE ATT&CK, Incident Response (LetsDefends)

Tools

- eNSP
- SQL
- Windows OS
- Mac OS
- VMWare
- AnyDesk
- iOS
- Android
- LetsDefend
- TryHackMe
- URLVoid

Hands on Lab and Projects

- SOC1 Blue Teaming – TryHackMe
  - Simulated detection of cyber-attacks using open-source tools
  - Performed log analysis, triaged alerts, and mapped techniques using MITRE ATT&CK

- Vulnerability Scanning – Hacktify + TryHackMe
  - Conducted scans using Nmap
  - Practiced basic enumeration and privilege escalation

- SOC Analyst Training – LetsDefend (In Progress)
    - Learning to respond to alerts in a simulated SOC environment
    - Working with SIEM dashboards, alerts, and incident tickets

Certifications

- ISO Certified Hacktify Penetration Testing (CHPT) – (2024)
- Cybersecurity Track – WomenTechsters Foundation (2025)
- Foundation of Cybersecurity – Google Coursera (2025)
- Play It Safe-Manage Security Risk – Google Coursera (2025)

Experience

Reliance Logistics Ltd **06/2024 – present**
Huawei HCIA Security Bootcamp
- Network Security Concepts and Specifications
- Network Basics
- Common Network Security Threats and Threats Prevention
- Firewall Security Policies
- Firewall NAT Technologies
- Firewall Hot Standby Technologies
- Firewall IPS
- Firewall User Management Technologies
- Fundamentals of Encryption and Decryption Technologies
- PKI Certificate System
- Encryption Technology Applications

WomenTechers Bootcamp (Cybersecurity) **10/2024 – 12/2024**

- Introduction to Cyber Security
- Cyber Threats
- CIA
- Network models
- Security Vulnerabilities
- Cyber Security Risks Assessment
- Data Protection
- Governance Risk and Compliance
