Professional Summary

Cybersecurity professional with hands-on experience in SOC operations, vulnerability assessment, and incident response. Skilled in risk management, compliance, and threat detection using tools like SIEM, Nmap, and MITRE ATT&CK. Strong communicator with a background in HR, bringing a unique perspective on policy, governance, and data protection.

Skills

Technical Skills

- Penetration Testing
- SOC Operation
- Threat Detection
- Incident Response
- Vulnerability Scanning
- Risk Management
- Python
- webOSINT

Soft Skills

- Teamwork
- Time Management
- Communication

Experience

Reliance Logistics Ltd **06/2024 – 2025**

Huawei HCIA Security Bootcamp

- Configured and implemented firewall security policies to protect networks from unauthorized access.
- Simulated intrusion detection and prevention using Firewall IPS and Hot Standby technologies.
- Applied NAT configurations to secure internal resources while maintaining connectivity.
- Practiced PKI certification management and encryption techniques to strengthen authentication and data confidentiality.
- Monitored and analyzed simulated network threats, applying prevention strategies to mitigate risks.

WomenTechers Bootcamp (Cybersecurity) **10/2024 – 12/2024**

- Conducted cyber risk assessments and documented vulnerabilities with recommended remediation strategies.
- Applied CIA (Confidentiality, Integrity, and Availability) principles in evaluating organizational security posture.
- Collaborated with peers on network security models and demonstrated strategies to address system vulnerabilities.
- Developed data protection guidelines aligned with governance, risk, and compliance (GRC) requirements.
- Delivered presentations to showcase findings on cyber threats and best practices for risk mitigation.

Human Resources Assistance **09/2023 - 06/2024**
CWG

- Assisted in the preparation of onboarding materials and facilitating the onboarding process for new hires.
- Collate HR clearance process for interns.
- Requested for work tools.
- Assisted in day-day HR administrative tasks.
- Supported in HR projects and initiatives assigned.
- Assisted in raising salary for staff.
- Assisted in working on contract renewal.
- File updates.

Human Resources Intern **06/2021**
RADIX PENSION

- Worked on Microsoft Excel.
- Assisted in interviewing new hires.
- Documenting and sorting out new hire file.

Tools

- SIEM
- Nmap
- VMware
- URLVoid
- AnyDesk

Hands on Lab and Projects

- SOC1 Blue Teaming – TryHackMe
  - Simulated detection of cyber-attacks using open-source tools
  - Performed log analysis, triaged alerts, and mapped techniques using MITRE ATT&CK

- Vulnerability Scanning – Hacktify + TryHackMe
  - Conducted scans using Nmap
  - Practiced basic enumeration and privilege escalation

- SOC Analyst Training – LetsDefend (In Progress)
    - Learning to respond to alerts in a simulated SOC environment
    - Working with SIEM dashboards, alerts, and incident tickets

Certifications

- ISO Certified Hacktify Penetration Testing (CHPT), Hacktify – (2024)
- Cybersecurity Track, WomenTechsters Foundation - (2025)
- Foundations of Cybersecurity, Google Coursera - (2025)

Education

Bachelor of Science (BSc): Management with Computing (HR)
Regent University College of Science and Technology (GHANA)
